DEPARTMENT OF  
**ECOLOGY**  
 State of Washington

## Come work with us!

Founded in 1970, the Department of Ecology, Washington's environmental protection agency, was the nation's first agency dedicated to environmental work.

**Its environmental workforce of about 1,816 people work at Ecology in the following options:**

Hydrogeologists - Geologists - Engineers - Chemists  
 Administrative Professionals - Dam Safety Experts  
 Environmental Planners - Permit Writers  
 Water Quality Specialists - Emergency Responders  
 Protecting the state's environment for current and future generations, Ecology is invested in making a difference in communities as effective, collaborative leaders embracing people's values.

Caring about employee wellness, we go beyond traditional benefits, offering:

- A healthy life/work balance with flexible schedules and telework options.
- Continuous growth and development opportunities
- A wellness program with education and outdoor meetings
- Opportunities to serve the community and have impact through meaningful work

**We strive to build inclusive work environments and meaningful engagement with diverse residents in the state**

**Join a team of dedicated professionals who want to make a difference!**

FIREWISE RISK ASSESSMENT **535-7274x215**  
[Ben-Peterson@SpokaneCD.org](mailto:Ben-Peterson@SpokaneCD.org)  
Forester/ISA Certified Arborist Ben Peterson  
Spokane area landowners can prevent catastrophic wildfire damage to homes and property with Firewise principles. County residents are eligible for a free Firewise Risk Assessment to evaluate their home.

HAZARD FUEL REDUCTION  
Garth Davis [Garth-Davis@SpokaneCD.org](mailto:Garth-Davis@SpokaneCD.org)  
Provides steps people living in forested areas can take to protect their property from wildfire and reduce loss of harvestable timber in forests. Offers projects to reduce the unnatural build-up of fuel in forests. Reduces natural fuels, forest vegetation or debris, activity fuels, debris left from

thinning projects, and small trees or brush that may carry a ground fire into the canopy. Actions include a perimeter around well heads especially before and during fire season to prevent well heads, metal, plastic and other contamination from a fire to cause well head to be closed.
